

WELDING, CUTTING AND HOT WORKS WARRANTY

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY FORM

It is warranted by you that the following conditions apply with respect to welding, cutting and other hot works operations performed on or away from your insured premise:

1. All combustible materials within 30 feet of the work site shall be removed or covered with fire resistant tarpaulins; and
2. All combustible material below the work site shall be removed or protected and any persons below the worksite shall be warned of the operations; and
3. In the immediate area of the work performed, the floors will be hosed down with water before and after the operations, unless the use of water would cause property damage; and
4. A watchman equipped with an operable, fully charged extinguisher shall be present during welding operations and for a period of 30 minutes after cessation of operations.

You agree that in the event of failure to comply with the foregoing conditions and a claim arises out of the operations so affected, there shall be no coverage provided under your policy.

Except as otherwise provided in this endorsement, all terms, provisions and conditions of the policy shall have full force and effect.

I/We hereby agree that I/we have received the above endorsement and that it is acceptable and understood by me/us.
